

Discover the Wonderful World of the

Honey Bee!

Programmes - are designed to compliment the national curricula for primary school pupils.

Visits - are personally tailored to meet individual school requirements in timetabling arrangements, class levels and curriculum needs.

- Allow up to 75 minutes for a group visit, longer if you want to do shopping.
- Class numbers - each programme is limited to one class/ group at a time for the greatest benefit. Parent and teacher help would be appreciated, especially when we divide the class into different activity groups.
- Resources - Resource kits and teacher guides are available for some programmes to support and enhance classroom activity.
- Bookings are essential.

Programme Highlights

- Discover the whole process of honey production from the hive to the honey pot.
- Stimulate all your senses of taste, smell, sight, hearing and touch at our honey house.
- Curriculum links - science, social studies, health, language, mathematics, art & craft, technology.
- Bee keeping is an ideal topic to integrate all these disciplines.
